

# Cobas LUX SICAV Palm Harbour Global Value Fund

## Fund Objective

The fund's objective is to provide superior, absolute, long-term capital appreciation by investing in a portfolio of high-quality companies trading at a significant discount to their intrinsic value.

## Investment Strategy

The fund is managed with a *Value* philosophy which emphasizes investing in businesses with strong competitive advantages when they are available at a significant discount to their growing intrinsic value. We utilize a rigorous investment process and believe patience and deep knowledge of our investments will lead to exceptional long-term returns. We avoid speculative and overhyped market darlings.

The fund is relatively unconstrained in order to take advantage of institutional constraints and behavioural biases. The fund focuses on small and mid-sized global companies with an emphasis on Europe. The fund is intended for investors who share our *Value* philosophy and want to invest like long-term business owners, with the aim of significant outperformance over the mid-term.
